

LALIT JOSHI

AEM Developer | Adobe Certified AEM Developer | B.E. Computer Science

+ (91) 7249271399 | lalitjoshi0726@gmail.com | linkedin.com/in/lalit-joshi2507/

PROFESSIONAL SUMMARY

Adobe Certified AEM Developer with **3 years** of experience in **Adobe Experience Manager (AEM Sites)** and **AEM as a Cloud Service (AEMaaCS)**. Experienced in developing reusable components, editable templates, Sling Models, OSGi services, workflows, and REST API integrations using Java. Worked on AEM platform migration, MSM, Dispatcher caching, external API integrations, and cloud deployments. Passionate about building **scalable and maintainable solutions** while leveraging AI-native development practices using GenAI tools to improve productivity and code quality.

TECHNICAL SKILLS

Adobe Experience Manager (AEM): AEMaaCS, Sling Models, Servlets, OSGi Services, HTL, Clientlibs, OSGi, JCR, Dispatcher, MSM, Content Fragments, Experience Fragments, Workflows, Replication, AEM APIs, Oak, CRX, Sling, AEM Sites, Digital Asset Management (DAM)

Backend & Cloud(AWS): Java, Spring Boot, REST APIs, JUnit, SQL, Node.js, AWS Lambda, API Gateway, S3

Frontend Technologies: HTML, CSS, JavaScript, Skylab, Bootstrap, Responsive Web Design, UI, UX

AI-Assisted Development: Cursor, Claude Code, GitHub Copilot, ChatGPT, Amazon Q, n8n, Prompt Engineering

Integration & Tools: Cloud Manager, CI/CD pipeline, Git, Postman, CRXDE, GitLab, Maven, Confluence, Gradle, Jira (Agile, Scrum methodology)

WORK EXPERIENCE

Programmer Analyst | Cognizant

Feb 2026 – Present

- Upgraded the SDL Translation Connector from **v1.2.9 to v1.9.18** in AEM as a Cloud Service by resolving deprecated APIs, validating OSGi configurations, and supporting multilingual translation workflows using MSM.
- Owned end-to-end design and delivery of custom Sling Servlets, OSGi bundles, and Sling Model Exporters to handle complex integrations with AWS DynamoDB, and Coveo, managing Apache Jackrabbit Oak repository interactions.
- Built a reusable AEM Weather component as part of AEMaaCS upskilling by integrating the Open-Meteo REST API using Sling Models and OSGi services, with configurable OSGi settings, thread-safe caching, and graceful fallback handling following production-ready design principles.
- Troubleshoot authoring, publishing, replication, and deployment issues while collaborating with developers, QA teams, and business stakeholders to ensure smooth production releases.
- Conducted knowledge transfer sessions for the Authoring Team, training content authors on AEM component and template usage along with best practices for Experience Fragments (XF) and Content Fragments (CF) — improving authoring efficiency and reducing content-related errors.

- Proactively upskilled in Generative AI and LLM-based tools, completing courses on Prompt Engineering, Claude Code, and AI Model Foundation.
- Applied AI-native development practices using Claude Code, Cursor, GitHub Copilot, and ChatGPT for code generation, debugging, refactoring, test creation, documentation, and technical analysis, improving development **productivity and solution quality**.

Associate Engineer | *Avalara Technologies*

Apr 2023 – Jan 2026

- Developed reusable AEM components, editable templates, dialogs, Sling Models, OSGi services, and REST API integrations to build scalable and maintainable features for Avalara's enterprise websites.
- Contributed to the migration of a legacy AEM platform to a new MSM-based architecture, developing editable templates aligned with the new design system and supporting the phased rollout of **500+ pages** across multiple regional websites.
- Proposed and implemented an Experience Fragment (XF)-based approach for headers, footers, and promotional banners during the AEM instance migration, enabling reusable, centrally-managed content blocks and improving content consistency across Avalara's regional websites.
- Wrote Dispatcher filter rules to whitelist specific URL paths, strengthening access control and aligning with AEM security best practices.
- **Developed a custom Page Property Updater** using Sling Servlets, HTL, Granite UI, and JCR APIs to automate bulk page metadata updates, reducing manual effort and improving author productivity.
- Contributed to a Headless AEM solution by integrating AEM Content Services with Node.js and AWS services, helping automate content publishing workflows and reduce SLA delays.
- Provided production support by troubleshooting Dispatcher, authoring, publishing, and replication issues, while participating in code reviews and Agile feature delivery with cross-functional teams.
- **Hackathon Excellence:** Recognized as a Top 10 Finalist in an organization-wide AI Hackathon for developing innovative AI-driven automation prototypes.

INTERNSHIP

Website Designing Internship | *Internship Studio*

- Designed and developed responsive web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and mobile-friendly layouts.
- Collaborated with the design team to translate UI/UX wireframes into functional web pages, gaining hands-on exposure to front-end development best practices.

EDUCATION

B.E. — Computer Science | D. Y. Patil School of Engineering, Pune

Jul 2018 – Jul 2022 | CGPA: 8.76 | Pune, Maharashtra

CERTIFICATIONS

- **Adobe Certified Expert** — AEM Sites Developer(AD0-E137)
- **Adobe Certified Training** — AEM Site Developer Professional Course Certification
- **Anthropic** Claude 101

AWARDS & RECOGNITION

- **Best Team Award, Avalara Technologies** — Awarded for consistent quality delivery, strong team collaboration, and active contribution to team engagement initiatives.
